CENTRAL OREGON FIRE MANAGEMENT SERVICE

2009 HAZARDOUS FUEL REDUCTION PROGRAM

CASCADES DIVISION DESCRIPTIONAL FOREST AND PRINEVILLE BUREAU OF LAND MANAGEMENT

HFR = Hazard Fuels Reduction PB = Precribed Burn

1 - Dilman: 850 acres, HFR, mowing and underburning

2 - Myst: 500 acres, HFR, piling and burning

3 - Charlie Brown: 150 acres HFR, PB

4 - Klak: 300 acres, HFR, underburning

C-5 - Katalo: 600 acres, HFR, mowing, piling and burning

C-6- Fall: 500 acres HFR, underburning, piling and burning

C-7 – Hwy 20: 104 acres, PB C-8 - Hwy 20: 123 acres, PB

C-9 – Hwy 20: 71 acres, PB, ecosystem restoration

C-10 - Hwy 20: 92 acres, PB

C-11 - Hwy 20: 150 acres, PB

C-12 - Hwy 20: 154 acres, PB

C-13 - Hwy 20: 42 acres, PB

C-16 – Metolius Basin: 57 acres, PB, ecosystem restoration

C-17 - Metolius Basin: 283 acres, PB

C-18 - Metolius Basin: 72 acres. PB

C-19 – Metolius Basin: 52 acres, PB,

ecosystem restoration

C-20 - Metolius Basin: 111 acres, PB

C-21 – Metolius Basin: 35 acres, PB

C-22 – Metolius Basin: 98 acres. PB

C-23 – Metolius Basin: 88 acres, PB,

ecosystem restoration

C-24- BBR NFR: 49 acres, PB

C-25 - BBR NFR: 89 acres, PB

C-26 – McCache: 190 acres, PB,

ecosystem restoration

C-27 - Underline: 107 acres, PB

C-28 – Hwy 20: 58 acres, PB, ecosystem restoration

C-29 – Hwy 20: 53 acres, PB, ecosystem retoration

C-30 – Hwy 20: 81 acres, PB, ecosystem restoration

C-32 – Hwy 20: 110 acres, PB, restore ecosystem

C-33 - Hwy 20: 50 acres, PB

C-36 – Metolius RNA: 24 acres, PB,

 $ecosystem\, restoration$

C-37 – Heritage Demo: 50 acres, PB mechanical, ecosoystem restoration

C-38 - Cline Buttes: 500 acres, PB

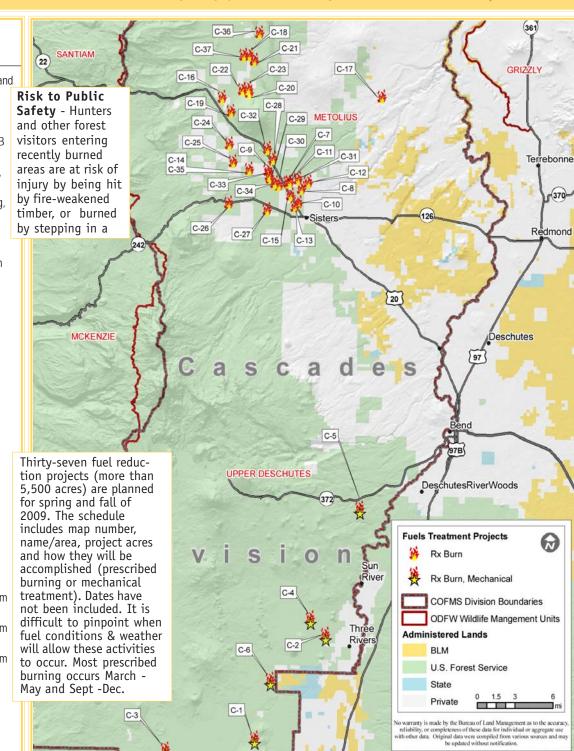

C-39 - Metolius Basin: 91 acres, PB

C-40 – Sisters Area Fuels Red: 84 acres,

0.44

C-41 - Hwy 20: 143 acres, PB

C-42 - Hwy 20: 95 acres, PB

CENTRAL OREGON FIRE MANAGMENT SERVICE, CASCADES DIVISION

Who plans hazard fuel reduction projects?

Hazard fuel reduction projects reduce the unnatural build-up of fuel in the forest. Fuels can be natural fuels, (forest vegetation or debris) activity fuels (debris left over from woodcutters or forest thinning projects) or *ladder fuels* (small trees or brush that carry a ground fire up into the canopy).

Resource specialists and fire managers from the US Forest Service, Bureau of Land Management and Oregon State Department of Forestry work closely together planning, implementing and monitoring hazard fuel reduction projects. Project locations and treatment methods are chosen carefully, with specific objectives. Land management agencies coordinate prescribed burning with Oregon Department of Environmental Quality to ensure compliance with national clean air standards.

Why burn?

intensity making them easier to control and reduces suppression costs.

Maintain and improve forest health by recycling nutrients, decreasing competition for water and sunlight and increasing resistance to bugs and disease.

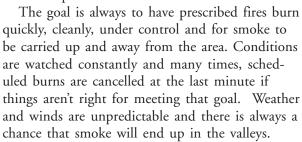

supplies such as native grasses, forbs and shrubs.

What about the smoke it creates?

Smoke from prescribed burning is a short-term effect of restoring healthy forests and is a mere fraction of the amount of smoke generated by high-intensity wildfires.

Most smoke from prescribed fires disperses quickly. Fire managers monitor the smoke from their burns, and try to avoid burning during poor smoke dispersal conditions.

Private property may benefit from a nearby hazard fuels reduction project, though there are no guarantees. Reducing forest fuels reduces flame lengths, increasing the ability of firefighters to safely protect a home. Prescribed fire also reduces potential for longdistance spotting from a wildfire.

Homeowners can increase the chances of their homes surviving wildfire by creating survivable space around their property. For more information visit: www.firefree.org.

How long will it take to reduce hazardous fuels?

It is safe to assume that prescribed burning and mechanical treatments such as thinning and mowing will continue to be important tools for improving and maintaining forest and grassland health for years to come. With the assistance of new administrative processes and funding made available through legislation such as the Healthy Forests Restoration Act and the Healthy Forest Initiative, land management agencies will continually look for ways to accomplish the work to be done.

American Recovery & Reinvestment Act (ARRA) Hazardous Fuels Reduction Projects – In March of 2009, the Deschutes & Ochoco National Forests were awarded approximately \$5 million of economic stimulus dollars to complete hazardous fuels reduction projects on National Forest administered lands in Central Oregon. The stimulus-funded fuels reduction work is being done in addition to the fuels treatment projects described in this flyer. The money received was distributed between Deschutes County (\$1.9 million), Jefferson County (\$1.9 million) and Crook County (\$.9 million).

The primary objective of the stimulus dollars was to create new jobs in the private sector. Local contract crews are completing important hazardous fuels reduction work in various locations, thinning the overcrowded trees and piling the woody debris. This work helps create healthier forests that are more resilient and resistant to the spread of catastrophic wildfires.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individuals income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
